1.1.5 Set Root Password	xxiv
1.1.6 Installation Complete	xxix
1.2 Graphical Installation	xxx
1.2.1 Introduction	xxx
1.2.2 System Requirements	xxx
1.2.3 Starting the Installation	xxx
1.2.4 Keyboard Selection	xxxii
1.2.5 Disk Partitioning Setup	xxxiii
1.2.6 Network Configuration	xxxix
1.2.7 Time Zone Selection	xlii
1.2.8 Set Root Password	xliii
1.2.9 About To Install	xliv
1.2.10 Installation	xlvi
1.2.11 Installation Complete	xlviii
2 Getting Started	50
2.1 Introduction to Openfiler	50
2.2 Logging on to Openfiler	51
2.3 Understanding the Openfiler Interface	54
2.3.1 Title Bar	55
2.3.2 Tabs	55
2.3.3 Work Area	55
2.3.4 Menu	55
2.3.5 Support	55
2.3.6 Footer	55
2.4 Openfiler Common Sections	56
2.5 Logging out from Openfiler	60
3 Status Section	61
3.1 System Overview	62
3.1.1 Viewing the System Overview	62
3.2 iSCSI Targets	64
3.2.1 Viewing iSCSI Targets	64
4 Managing System	65
4.1 Network Setup	66
4.1.1 Viewing Network Setup	67
4.1.2 Modifying Network Configuration	70
4.1.3 Viewing Network Interface	71
4.1.4 Editing/Configuring a Network Interface	73
4.1.5 Creating a Bonded Interface	75

4.1.6 Adding a new Network Access Entry	78
4.1.7 Deleting a Network Access Entry	79
4.2 Setting up the Clock	80
4.2.1 Setting the system clock manually	80
4.2.2 Synchronizing the System Clock with NTP timeserver	81
4.2.3 Setting Time zone	82
4.3 Managing UPS	83
4.3.1 Configuring a UPS device	83
4.3.2 Editing a UPS configuration	85
4.4 Shutting down/Rebooting the System	86
4.5 Managing Notification Configuration	87
4.6 Updating the System	88
4.7 Backup/Restore	90
4.7.1 Viewing Backup Configuration	90
4.7.2 Restoring the Configuration	90
4.8 Managing Secure Console	92
5 Managing Volumes	93
5.1 Managing Volumes	94
5.1.1 Viewing Volume Group	94
5.1.2 Adding a Volume	96
5.2 Managing Volume Group	103
5.2.1 Volume Group Management	103
5.2.2 Creating a new Volume Group	107
5.3 Managing Block Devices	109
5.3.1 Block Device Management	109
5.4 Managing iSCSI Targets	113
5.4.1 Target Configuration	113
5.4.2 LUN Mapping	117
5.4.3 Managing Network ACL	120
5.4.4 CHAP Authentication	121
5.5 Software RAID	124
5.5.1 Creating a New RAID Array	125
6 Managing Quota	127
6.1 Managing Group Quota	128
6.1.1 Selecting a Volume	128
6.1.2 Editing a Group Quota	130
6.2 Managing User Quota	133
6.2.1 Selecting a Volume	133
6.2.2 Editing a User Quota	135
6.3 Managing Guest Quota	138
6.3.1 Selecting a Volume	138
6.3.2 Editing a Guest Quota	139
7 Managing Shares	141
7.1 Managing Shares	142
7.1.1 Viewing Existing Shares	142
7.1.2 Creating a Share	143
7.1.3 Editing a Share	150
7.1.4 Deleting a Share	160
7.2 Viewing Snapshot Shares	161

8 Managing Services	162
8.1 Service Management	163
8.1.1 Modifying a Service Status	163
8.2 SMB/CIFS Setup	164
8.2.1 Modifying SMB/CIFS Setup	164
8.3 LDAP Setup	168
8.3.1 Viewing the LDAP Setup	168
8.3.2 LDAP Backup	169
8.3.3 Recovering LDAP	170
8.3.4 Rebuilding LDAP	171
8.3.5 Deleting LDAP	172
8.4 UPS Setup	174
8.4.1 Configuring Service Mode	174
8.4.2 Configuring Access Control	175
8.4.3 Adding a UPSD User	175
8.4.4 Deleting a UPSD User	176
8.4.5 Adding a UPS System Monitoring Entry	177
8.4.6 Deleting a UPS System Monitoring Entry	179
8.5 Managing Rsync Setup	180
8.6 iSCSI Target Setup	181
8.6.1 Adding a Discovery CHAP user	181
8.6.2 Managing iSNS Server	182
8.7 Setting up FTP	183
9 Managing Accounts	186
9.1 Authentication	187
9.1.1 Viewing/Modifying User Information Configuration – Standard View	187
9.1.2 Viewing/Modifying User Information Configuration – Expert View	191
9.2 Administration	201
9.2.1 Group Administration	201
9.2.2 User Administration	204
9.3 Viewing the User List	208
9.4 Viewing the Group List	210
9.5 Changing Admin Password	212
10 Advanced Configuration	213
10.1 Fibre Channel Target Setup	213
10.1.1 Components	214
10.1.2 Assumptions	214
10.1.3 Files, Commands & Services	215
10.1.4 Services	218
10.1.5 Configuration	219
1 Appendix	222
1.1 RAID Overview	222
1.1.1 RAID Levels	223
1.2 Troubleshooting	227
1.2.1 Active Directory Integration	227
1.2.2 iSCSI Target Configuration	228
1.2.3 CIFS Share Access	228
